**Introduction**

Electrical department of VPKBIET has organized a technical event called VOLTZFEST 2K25 on 10<sup>th</sup> and 11<sup>th</sup> February. The event helped the students for participating in multiple competitions for increasing technical knowledge and also for Entertainment purpose.

**Event Overview**

|   |                    |                                                                             |
|---|--------------------|-----------------------------------------------------------------------------|
| 1 | Name of the Event  | VOLTZFEST 2K25                                                              |
| 2 | Event Start Date   | 10 <sup>th</sup> February 2025                                              |
| 3 | Event End Date     | 11 <sup>th</sup> February 2025                                              |
| 4 | Organized By       | Electrical Engineering Students Association                                 |
| 5 | Place of the Event | VPKBIET                                                                     |
| 6 | Event Type         | Technical and Entertainment                                                 |
| 7 | Event Objectives   | 1. Technology awareness.<br>2. Social activity for student's participation. |

**Details of the Event**

**1. AI ART GALLERY**

A platform for artists for uplifting their skills using AI. Also helpful for students who are not that capable in perfectional art making.

## **2. Use of technology**

Competition was held using telegram bot VOLTZFEST\_2K25 developed by Mr. Yash Shukla, an esteemed alumnus of VPKBIET from the 2024 IT Department batch. This bot, which played a crucial role in the event's success, allowed students to explore AI-based image generation. His technical expertise and dedication helped in organizing an innovative AI-powered competition, showcasing the potential of AI in creative domains. The use of InstaVision added a new dimension to the event, enhancing student engagement and technological awareness.

(InstaVision Bot by Yash Shukla - <https://github.com/StudiYash/InstaVision>).

## **3. Special Guest**

We were honored to have Ms. Monali More, as our special guest for the evaluation for three rounds. The evaluation was fairly done by her.

## **4. Code of conduct**

Competition was held in three rounds

### **Round 1: Brush to Bot**

In which candidates have to replicate their hand made artwork using AI.

### **Round 2: Topic Transformations**

In this round 4 to 5 topics were given for image generation.

### **Round 3: The Matchmaker**

A description of image was provided for limited time candidates have to generate images on the same topic in limited time.

## **8. Some Glimpses**

## Conclusion

The VOLTZFEST 2K25, organized by electrical department of VPKBIET, was a tremendous success. The blend of, technological innovation, for upliftment of knowledge of the students.

We are also grateful to Ms. Monali More, for gracing our celebration with her esteemed presence during the event. Her presence added immense value to the event, and her words of encouragement truly motivated the students and faculty alike. We sincerely thank her for taking the time to be a part of VOLTZFEST 2K25.

I would also like to thank Mrs Rokde madam faculty coordinator of AI ART GALLERY for a great support before and during the event.

A special thank you to Mr. Yash Shukla, whose contribution through the VOLTZFEST\_2K25 Bot made a remarkable impact on the celebration. His dedication and innovation played a pivotal role in ensuring the success of the Telegram Bot Image Generative Competition. We deeply appreciate his efforts and look forward to continued collaborations in the future.
